Grading Criteria for the Project

Your project was graded as follows.

1. If you did not submit, we gave you 0 points

2. If your project does not attempt to do the final project, you will get at most 60 points.

3. If your project does not compile then we started by giving you 60 points and deducting from 60 points as follows

   (a) If the project does not include a ReadMe file, we deducted 15 points

   (b) If the project does not include a project report, we deducted 20 points

4. If you submitted and your program compiles, then we started by giving you 120 points and then started deducting from 120 points as follows

   (a) If the project does not include a ReadMe file, we deducted 15 points

   (b) If the project does not include a project report, we deducted 20 points

   (c) We ran your program against 7 test cases. For each wrong answer we deducted 3 points. These files are given on Blackboard.

   (d) If your program does not pass any testcase, then additional 15-20 points were taken off according to the discretion of the TA.

5. Two bonus points are given if you presented your project at midpoint to us

6. Up-to eight additional bonus points are given according to the discretion of the TA.
